

MPT03

Multifunctional Order Picker

Efficient order picking | Ladder-free operation | Many applications

MPT03

Efficient order picking

Working platform height up to 3 m

Driving and lifting simultaneously

Compact and manoeuvrable

Height-adjustable telescopic shelf

The MPT03 is a compact, multifunctional order picker with a height-adjustable work platform, enabling efficient operation up to a platform height of 3000 mm. Simultaneous driving and lifting speeds up work processes, while the compact design allows precise manoeuvring even in confined areas. This makes the MPT03 ideal for order picking, shelf replenishment and indoor service applications.

Technical data: MPT03

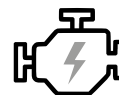

Load capacity:
300 kg

Standing height:
max. 3000 mm

Driving speed:
max. 8,2 km/h

Power drive motor:
1,2 kW

LI-ION

Battery capacity:
24 V / 100 Ah
24 V / 150 Ah
